- Mass employee notification
- Customer proactive engagement

Exclusively for Cisco on-premise collaboration

CMS+

Add-Ins for Cisco Meeting Server

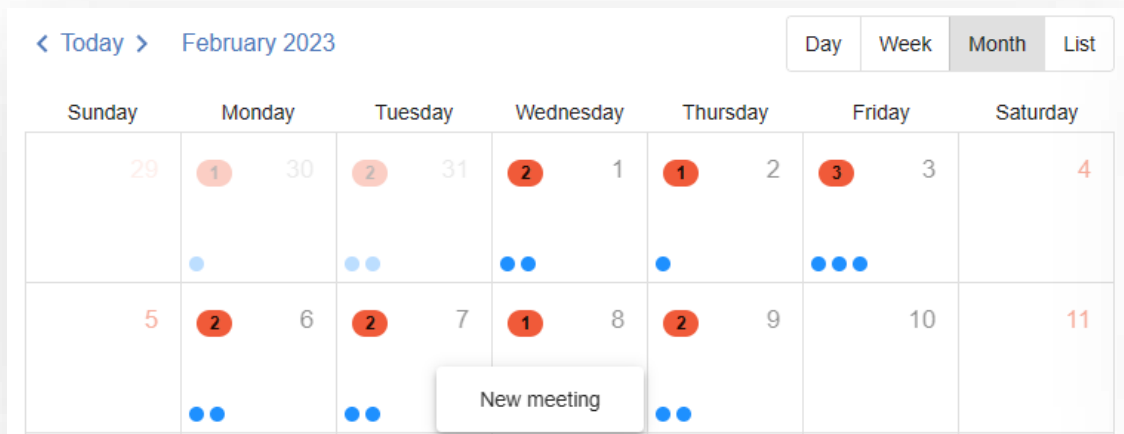

- Advanced meeting scheduler
- Live meeting streaming
- Recordings portal
- Conference control tool

PhoneUP^{apps}

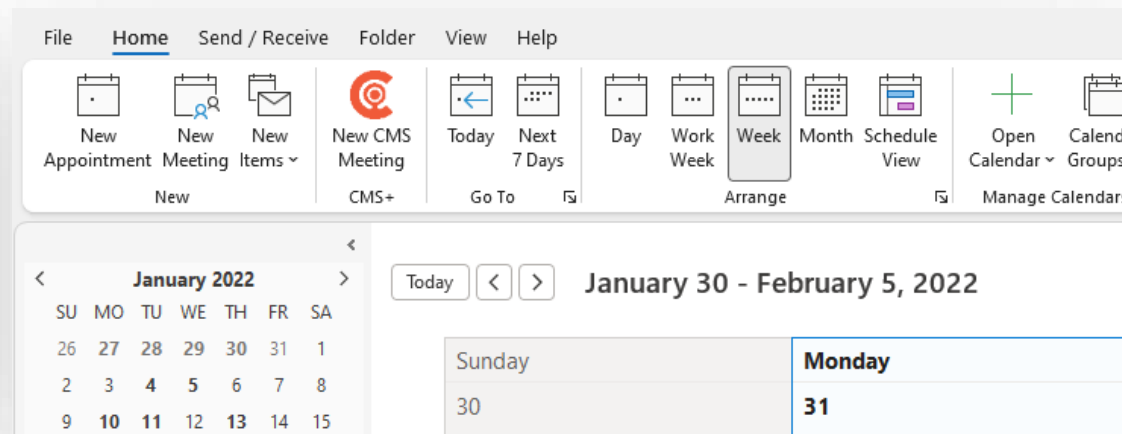

Productivity apps for Cisco UCM

- Enterprise directory
- Attendant / Operator console
- Audio / Text paging
- Phone lock and EM SSO
- IP phone apps designer

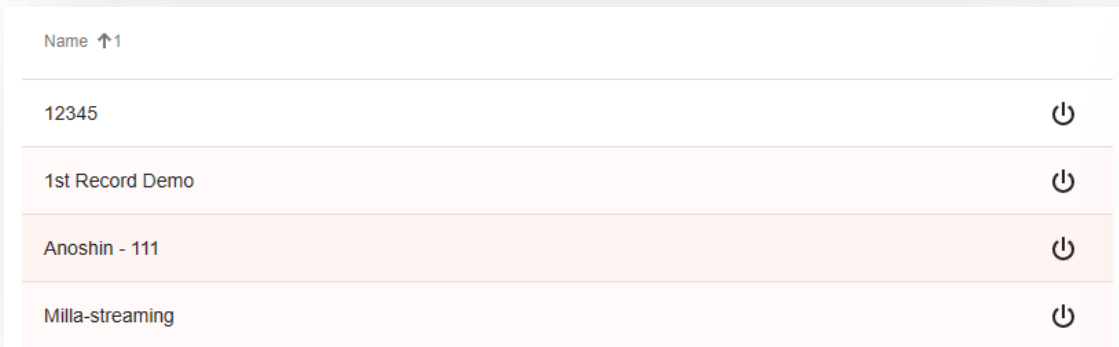

Schedule CMS meetings easy

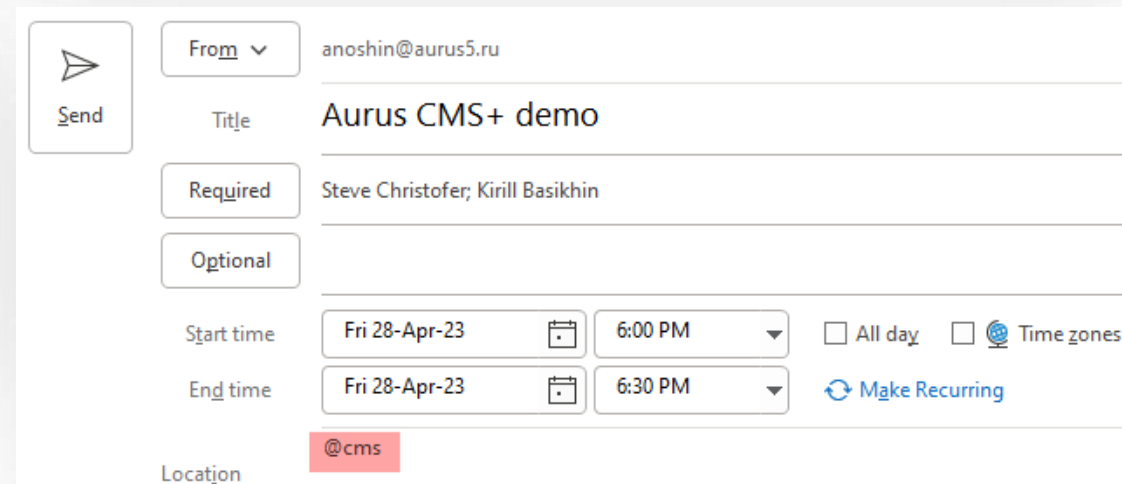

Personal web-calendar

Outlook Add-In (embedded into Outlook ribbon)

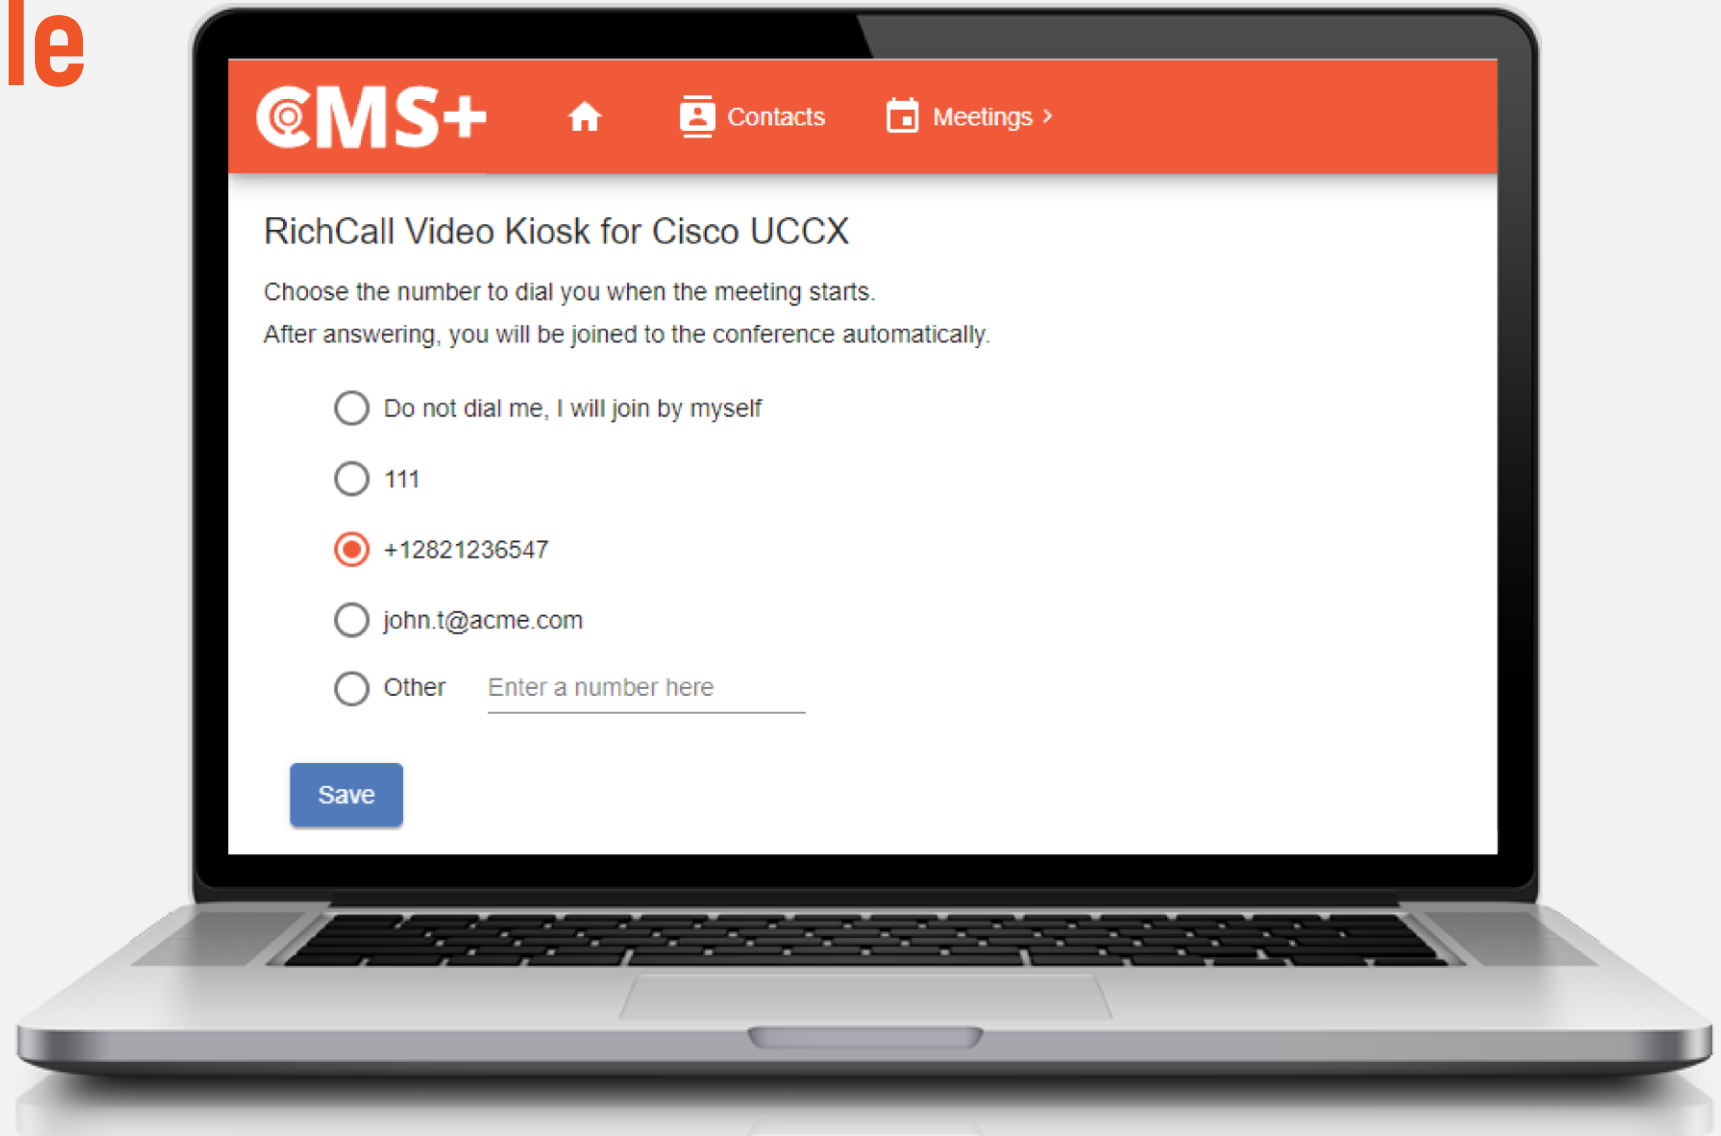

Ad-Hoc meeting templates (one-button launch)

Keyword-triggered scheduling (integration with MS Exchange)

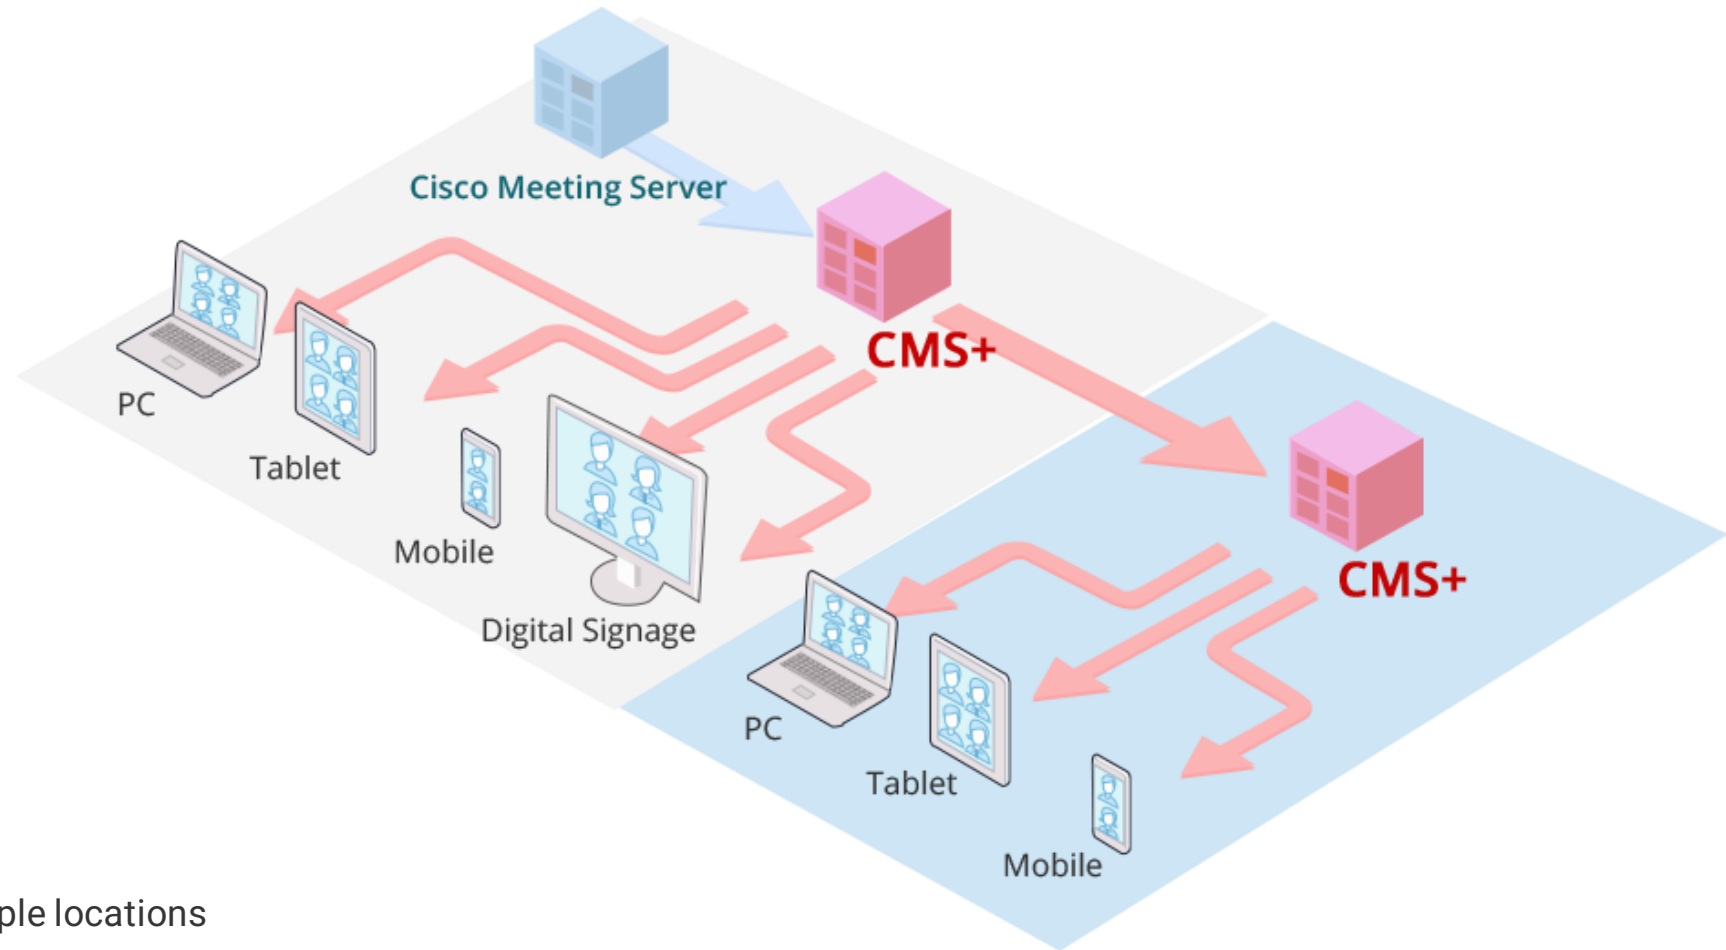

Connect people and devices quickly

- Blast dial feature
- Personal dial-out settings
- Configurable “find me” option
- OBTP for Cisco and Poly devices

Live meeting streaming

With CMS+ you can stream meetings live to global audiences.

Cascading deployment

Deploy **CMS+ media-servers** over multiple locations for efficient use of WAN/LAN bandwidth.

Users will be **automatically connected** to one of media-servers depending on their location.

Conference control App

- Secure access – only host can control the meeting
- Better monitoring - with snapshots from Cisco endpoints
- Faster control - add people faster with advanced directory and personal «find me» option

The screenshot displays the CMS+ Conference Control App interface. At the top, a navigation bar includes icons for Home, Contacts, Meetings, Monitoring, Reports, Users, Settings, and Admin. The main header shows 'My Meeting' with a back arrow and a set of control buttons: Add participants, Layout for all, Mute all, Unmute all, Start recording, Start streaming, Share, and End meeting.

Meeting details on the left include: Owner: Admin, Type: AdHoc, Room: Unique, Started at: 06/30/2021 12:55:06 PM, and Duration: 00:03:14.

The 'Participants' section features a filter and a table of active participants. The first participant, Maria Crown, is highlighted with a video thumbnail and detailed statistics.

Name	Status	Phone
Maria Crown	Connected 6/30/2021, 12:55:14 PM	12040
James Christofer		
Jessica Lang		
Mary Peterson	Connected 6/30/2021, 12:55:08 PM	12000
Ed Dias	Connected 6/30/2021, 12:55:08 PM	12044

Technical details for Maria Crown:

Direction	Outgoing	Audio	Transmitting / Receiving	Video	Transmitting / Receiving
Layout	Telepresence	Protocol	AAC / AAC	Protocol	H.264 / H.264
Type	Sip	Channel rate	64 kbps / 69 kbps	Resolution	640x360 / -
		Current packet loss	0 % / 0 %	Frame rate	5.3 fps / -
		Jitter	8 ms / 2 ms	Channel rate	5 kbps / 124 kbps
		RTT	3 ms / -	Current packet loss	0 % / 0 %
				Jitter	8 ms / 4 ms
				RTT	3 ms / -
